## WORK EXPERIENCE

March 2021 - Present

### Web/Graphic Designer

Studio 2108  
St. Louis, MO

I function as Web, UI, UX, and graphic designer all in one. I work in Adobe XD to create high-fidelity mockups, design assets with Illustrator and Photoshop, and work within each client's brand guidelines. I communicate with our clients directly to establish mutual clarity about their goals and my creative solutions. I work with my teammates, utilizing each other's strengths. I manage my time effectively, and successfully handle urgent requests while staying on track with long-term project deadlines. I design for usability and accessibility, using W3C guidelines. I have honed development skills in Wordpress, HTML and CSS and am able to take a website from ideation to launch.

May 2020 - March 2021

### Freelance Designer and 3D Artist

St. Louis, MO

I utilized my versatile design skillset to work on a wide variety of projects. I used my 3D modeling and animation skills in Blender to create graphics for AAA ads. I designed table tents, posters, and a catering menu for Farotto's, a local St. Louis restaurant, adhering to their brand guidelines and aesthetics. I designed theater posters and programs for Providence school's annual Shakespeare production. The software I used included Adobe Illustrator, InDesign, Photoshop, Blender and Adobe After Effects.

May 2018 - August 2018

### Design Intern

Thrive St. Louis Women's Healthcare  
St. Louis, MO

I worked on many projects that required me to design within Thrive's brand guidelines, including a mailer for their annual fundraising dinner. For this project, I designed every part of the mailer, including the envelope, seal, card and a RSVP insert, chose paper for each, and designed the graphics and typography to correspond to the event's theme. I used Adobe InDesign's automation tools to add hundreds of unique recipient names and addresses to the envelopes quickly. During the print production process, I did jobs including trimming, scoring, folding, and assembling. During this position I used Adobe Photoshop, Illustrator, and InDesign.

## SKILLS

Graphic Design  
Web Design  
UI/UX  
Adobe CC Suite  
Microsoft Office  
Excel  
Blender  
Adobe XD  
Sketch
